510(k) for the Siesta Medical, Inc  
ENCORE Tongue Suspension System  
April 26, 2011

## Section 5 510(k) Summary (per 21CFR 807.92)

JUL - 1 2011

<b>General Company Information</b>		
Name:	Siesta Medical, Inc.	
Contact:	Michael Kolber Vice President, Regulatory Affairs	
Address:	101 Church Street, Suite 3 Los Gatos, CA 95030	
Telephone:	408-505-6626	
Fax:	408-399-7600	
Date Prepared:	April 26, 2011	
<b>General Device Information</b>		
Product Name:	ENCORE™ Tongue Suspension System	
Common Name:	Bone Screw System	
Classification:	21CFR872.5570 Intraoral devices for snoring and intraoral devices for snoring and obstructive sleep apnea.	
Device Class:	Class II	
Product Code:	ORY	
<b>Predicate Device</b>		
Manufacturer	Device Name	510(k) Number
Siesta Medical, Inc.	PRELUDE III Tongue Suspension System	K110127
<b>Description</b>		
The ENCORE Tongue Suspension System is designed for anterior tongue base suspension by fixation of the soft tissue of the tongue base to the mandible bone using a bone screw and suture. The ENCORE Tongue Suspension System consists of an integrated suture passer pre-loaded with size #2-0 braided polyester suture, a titanium bone screw that is pre-mounted on an inserter, a bone screw lock tool, and a Threading Tool. In addition, one of the following suspension sutures are provided depending on the model number: 1) a size #1 monofilament polypropylene suspension suture, 2) a size #1 monofilament polypropylene suspension suture with a radiopaque marker, 3) a size #2 monofilament polypropylene suspension suture with a radiopaque marker, or 4) a size #2 braided polyester suspension suture.		
Similar to the PRELUDE III System, the ENCORE Tongue Suspension System 1) uses a bone screw, 2) uses a bone screw inserter to place a bone screw into the bone, and 3) uses a needle to pass a suspension suture submucosally through the base of the tongue. The ENCORE uses a Suture Passer and working suture loops to pass a suture from the posterior to anterior position in the tongue. The ENCORE advances the tongue in the anterior direction with a suspension suture. A Threading Tool is provided to ease passage of the suspension suture through the bone screw.		
<b>Intended Use (Indications)</b>		
The Siesta Medical, Inc. ENCORE Tongue Suspension System is intended to be used for anterior advancement of the tongue base by means of a bone screw threaded with suture. It is indicated for the treatment of mild or moderate obstructive sleep apnea (OSA) and /or snoring.		
<b>Substantial Equivalence</b>		
This submission supports the position that the Siesta Medical, Inc. ENCORE Tongue Suspension System is substantially equivalent to the PRELUDE III Tongue Suspension System (K110127). The 510(k) notice contains a summary of the Suture Endurance Test and the Bone Screw Fixation		

Strength Test, which were used to evaluate the performance characteristics of the ENCORE Tongue Suspension System. This data demonstrate that the suture was able to endure 10.5 million cycles without breakage and that the bone screw to suture attachment strengths were no worse than the predicate device. The data demonstrate that the performance characteristics of the ENCORE Tongue Suspension System compare favorably to the predicate device.

**Conclusions**

Siesta Medical, Inc. believes that the information provided demonstrates that the proposed device is substantially equivalent to the predicate device and does not raise any new issues of safety or efficacy. Based on the indications for use, technological characteristics, and comparison to the predicate device, the ENCORE Tongue Suspension System has been shown to be substantially equivalent to predicate device as described under the Federal Food, Drug and Cosmetic Act.

Re: K111179

Trade/Device Name: ENCORE™ Tongue Suspension System

Regulation Number: 21 CFR 872.5570

Regulation Name: Intraoral Devices for Snoring and Intraoral Devices for Snoring and Obstructive Sleep Apnea

Regulatory Class: II

Product Code: ORY

Dated: June 1, 2011

Received: June 2, 2011

Dear Mr. Kolber:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. Please note: CDRH does not evaluate information related to contract liability warranties. We remind you, however, that device labeling must be truthful and not misleading.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please go to <http://www.fda.gov/AboutFDA/CentersOffices/CDRH/CDRHOffices/ucm115809.htm> for the Center for Devices and Radiological Health's (CDRH's) Office of Compliance. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to <http://www.fda.gov/MedicalDevices/Safety/ReportaProblem/default.htm> for the CDRH's Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address <http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm>.

Sincerely yours,
